Subject: Regele Ferdinand T22 FOS & Rigging Warrant Supply

Derek,

As you know Regele Ferdinand was commissioned last Thursday. It was a proud moment for all of us at FSL and BAE SYSTEMS to see the ship at its best.

I write to thank you and your team at GDP for your continued support and commitment to making this project a success.

The secondment of your Project Manager Connie to our team at Portsmouth was a superb idea and was **key** to our ability to deliver the ship on time. It also assisted the hand over and acceptance due to the working relationships built between Connie yourself and the Romanian team.

The proactive service provided by GDP has been superb, so please pass on my thanks and appreciation and we look forward to working with you to deliver ship two and potentially T23s.

Regards

Barry Woolley
FSL Project Manager
